## **WELCOME**

Eurographics 2013, the 34rd Annual Conference of the European Association for Computer Graphics, will take place on May 6th to 10th, 2013 in Girona, Spain. It is being organized by ViRVIG, Research Centre for Visualization, Virtual Reality and Graphics Interaction and University of Girona. Eurographics has an on going tradition of being one of the most important yearly global meetings for the computer graphics community, where world-leading academics and representatives of major commercial research divisions in this sector showcase their latest techniques and educational work, and explore new trends and ideas. Eurographics 2013 (EG2013) will surely continue this tradition!

Eurographics attracts participants from around the world, and is the most important Computer graphics conference held in Europe. At EG2013 we expect approximately 450 registered participants. The venue selected for 2013 is the Scientific and Technological Park of the University of Girona close to the downtown area. This year's location provides secondary but very attractive reasons to participate. Additional information on EG2013 will be available on the conference website at http://eg2013.udg.edu

Participants and invited speakers at the conference typically work on the latest developments in all aspects of computer graphics. This concentration of delegates will provide a unique opportunity for you and your company to reach a discerning audience of academic and industrial experts.

Enclosed is our selection of sponsorship and promotion opportunities, designed to be attractive means of elevating your company profile. If you would prefer to support EG2013 in other ways we would be happy to try to accommodate your needs.

The conference organizing committee looks forward to your participation as we strive to organize a successful EG2013. If you have any questions or comments, please contact directly the EG2013 chairmen. Any questions, issues and/or requests will be discussed in a confidential manner.
